

I am writing to comment on the expansion of LPFM. I understand that this broadcast service could force K-LOVE off the air. I am a listener in Denver, Colorado.

This station ministers to me on a daily basis, as I'm sure it does to a number of other people across the country. There are a number of people who listen to the station in rural areas, that may not be able to attend a church. It ministers to people who are driving across the country, they tune to the station in the area where they are traveling.

Parents do not have to worry about their children listening to this station. The music & comments on the station project a positive atmosphere, where teenagers can receive support through the music. I cannot think of another station that is 100% safe for children of all ages, from toddlers to young adults.

This community would suffer if K-LOVE was not on the air.
